Art Unit: 1713

DETAILED ACTION

This office action follows a response filed on December 18, 2006. Claims 1 and 2 were amended, and new claims 6 and 7 were added. Claims 1-7 are pending.

Claim Rejections - 35 USC § 102/35 USC § 103

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Howard *et al.* (U.S. 6,258,912).

The present invention is drawn to a copolymer of ethylene and α-olefin of from 4 to 20 carbon atoms having a melt flow rate of from 1.5 to 100 g/10 min and an activation energy for melt flow of 60 kJ/mole or more. Howard et al. discloses a copolymer of ethylene and 1-hexene having a melt flow rate of from 1.6 g/10 min and an activation energy for melt flow of 70.81 kJ/mole. One observes that the basic material of the instant claims is disclosed in the prior art. The reference is silent with respect to the relationship between melt tension, intrinsic viscosity, relaxation time, chain length, and swell ratio, as recited in formulas (1) to (6), however, in light of the fact that the basic material of the instant claims is essentially the same as that claimed, a reasonable basis exists to believe that the copolymer of Howard et al. exhibits the claimed features. Since the PTO can not conduct experiments, the burden of proof is shifted to the Applicants to establish an unobviousness difference. In re Fitzgerald, 619 F.2d. 67, 205 USPQ 594 (CCPA 1980). See MPEP § 2112-2112.02.

3. Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Howard *et al.* does not teach copolymers exhibiting the claimed MFR range.

Art Unit: 1713

Response to Arguments

4. The rejection of claims under 35 U.S.C. 102/103 over Kokubo *et al.* (EP 640 627) has been overcome by amendment.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Prior Art

6. The prior art made of record but not relied upon is considered pertinent to the Applicant's disclosure.

Kanda et al. (U.S. 5,700,895) discloses a copolymer derived from ethylene and 1-butene having an activation energy for melt flow of 78 kJ/mole, a MFR of 1 g/10 min, and a melt tension of 6.5. The polymer does not satisfy the basic properties set forth in the instant claims.

examiner should be directed to Rip A. Lee whose telephone number is (571)272-1104. The

examiner can be reached on Monday through Friday from 9:00 AM - 5:00 PM. If attempts to

reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu, can be

reached at (571)272-1114. The fax phone number for the organization where this application or

proceeding is assigned is (571)273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on the access to the

Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll free).
